

SCREENS PANELS DIVISIONS

Screen Art panels are a simple way to create a unique signature feature that is strong, beautiful & maintenance free. Each panel is cut from aluminium & framed in a strong, lightweight extrusion that is easily fastened to any structural component indoors or outdoors.

Casting delicate shadows & filtered light through complex geometric patterns or romantic contemporary designs, Scree Art panels are the beautiful alternative to bars, lattice or timber slats.

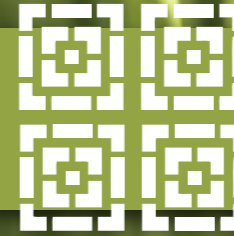

Screen Art panels are the ultimate alternative for:

- Privacy screens & room divisions
- Balcony & patio wall panels
- Landscaping & garden screens
- Interior & exterior focal points
- Water features
- Window security & light filtration
- Lighting effects & ceiling panels

The beautiful alternative to life behind bars

THE BEAUTIFUL ALTERNATIVE

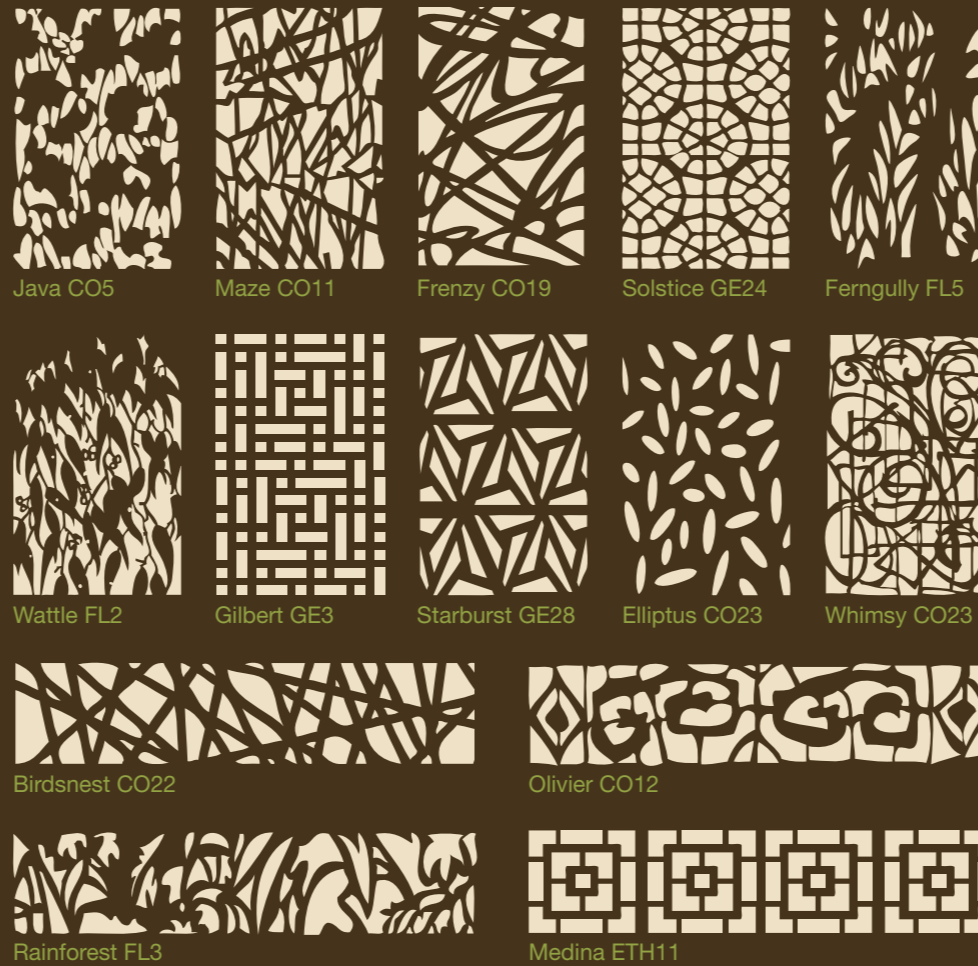

Screen Art panels are the beautiful alternative when it comes to screens, divisions & panels. With superior design & craftsmanship, our screens are available in many designs with a powder coat finish to suit any colour palette.

As a definitive element that will give your home, garden or project the individuality & uniqueness it deserves, Screen Art panels are a simple way to create a strong & beautiful maintenance free feature, providing filtered privacy & light, showcasing your interior or exterior living environment.

EASY IMPLEMENTATION

Screen Art panels are cut from 3mm aluminium sheet & are housed in an easy to install strong 50mm wide structural frame. The Screen Art panels combine the strength & security of metal, with the maintenance free weatherproof protection of powder coating.

Screen Art panels can be implemented into any application including, gates, fences, windows, doors, ceilings, balustrades or as room dividers, privacy screens, landscaping or garden screens, wall features, lighting or fountain features.

The beautiful alternative to life behind bars.

MAINTENANCE FREE

Cut from thick aluminium, Screen Art panels are maintenance free. Unlike timber, our aluminium screens will not warp, crack or rot & with a Dulux® powder coat finish all screens & panels are weatherproof, highly durable & do not require painting or sealing.

COLOUR RANGE

Screen Art panels are available in the following standard powder coat finishes. If the colours in our standard range do not suit your colour requirements, Screen Art can match the powder coat finish specifically to your colour scheme.

Visit www.screenart.net.au for our complete range of designs & more information on how you can implement Screen Art into your home or project.
